

## **September 14, 2012—Dental Select Employees Save Lives Through Blood Donation**

On Friday September 14 Dental Select employees combined efforts with the American Red Cross to save lives. Four Red Cross staff members happily greeted employees and made anxious donors as comfortable as possible. There were approximately 33 willing participants and 22 pints of blood were actually donated. According to Sheri Van Bibber, Donor Recruitment Representative for the American Red Cross, this number will impact up to 66 patients. This outstanding willingness was greatly appreciated by the Red Cross staff and Dental Select team. To learn more about blood donation visit <http://www.redcrossblood.org/>
